How to Draw **TREES & BACK FOLIAGE**

① I START TREES WITH THE OUTSIDE EDGES, REMEMBERING THAT TREES ARE FATTER ON TOP & BOTTOM.
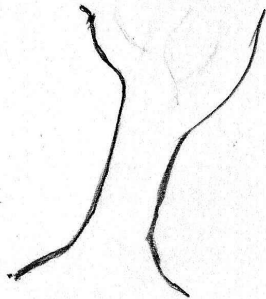

② THEN, I DIVIDE UP THE TOP PORTION INTO SOME BRANCHES. **DON'T** BE SYMETRICAL. — TREES DON'T GROW THE SAME ON BOTH SIDES.
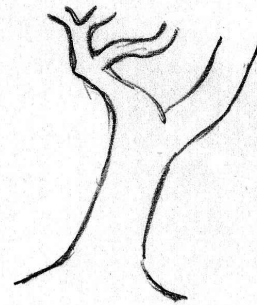

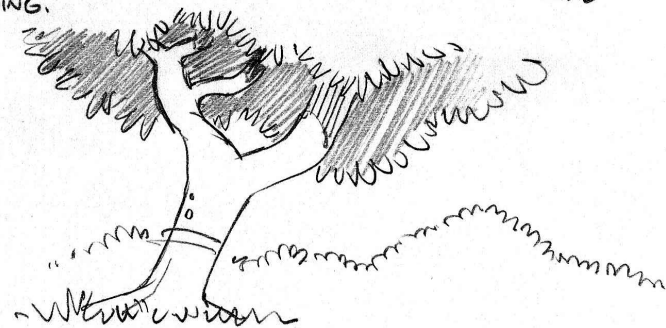

③ NEXT, I ADD LOTS OF TINY "U" SHAPES TO INDICATE LEAVES

ALSO, SOME AT THE BOTTOM TO INDICATE GRASS.

④ LAST, I ADD SOME INDICATIONS FOR BARK AND SOME SHADING.

YOU CAN ALSO DRAW SOME UPSIDE-DOWN "U"S IN THE BACK GROUND TO STAND FOR BUSHES IN THE DISTANCE.
